

## Vaccinations For Cats

### Vaccinations for Kittens (up to 12 months)

Vaccination	Up to 9 Weeks	12 Weeks	16 Weeks	Booster 12 Months
Feline Viral Rhinotracheitis				
Panleukopenia				
Feline Calicivirus				
Rabies**				
Feline Leukemia				

### Vaccinations for Adult Cats (one year or older)

Vaccination	Annually	Every 3 Years
Feline Viral Rhinotracheitis*		
Panleukopenia		
Feline Calicivirus*		
Rabies**		
Feline Leukemia		

\* These vaccines may be repeated more often, when a dog or cat has greater exposure to risk, such as at dog or cat shows.

\*\* Pennsylvania law requires that any cat that spends time indoors be vaccinated against rabies.
